Mike,

I want to thank AP Innovations, Inc (API) and AP Fabrications, LLC (APF) for the excellent service I received from your company in the planning, fabrication, installation and training at our biodiesel plant at San Jose. Having someone in the industry that we can trust, gives us a welcome sense of security. I would recommend AP Innovations to anyone building a biodiesel plant.

Our project presented you with many challenges, with frequent scope changes, designing the installation for potential removal, and many unplanned hurdles. No matter the challenge, or what time myself or anyone called with a question or a need, you or one of your colleagues were there to assist.

With Sincere Thanks,

A handwritten signature in black ink that reads "Chad Smith". The signature is fluid and cursive.
