September 30, 2008

Mike,

When we were looking to purchase a biodiesel plant, we met with you and Steve and were impressed with the knowledge you had in such a young industry. We ordered a plant and AP Innovations, Inc (API) worked hard to make sure everything worked as promised.

AP Innovations, Inc and AP Fabrications, LLC have been excellent in assisting us in installing and starting up this plant. No matter when we call for help, someone is there to help us.

Sincerely

Jerry F. Bagby
Co-Owner
Global Fuels LLC
