Stuttgart, AR 72160

Dear Mike & Steve

I want to thank AP Innovations, Inc and AP Fabrications, LLC for the excellent service I received from your company in the planning of our biodiesel plant. The knowledge and foresight that you and Steve shared with our company will save us a lot of money in preventing costly mistakes as we move forward with the project.

Your patience in standing by us as we worked through the permit process with the City of Commerce and the various regulatory agencies was beyond normal expectations. Even when we changed course with the selection of a second site you and your staff worked tirelessly to help with that process. While our company was not able to circumvent the political roadblocks, the permitting process ultimately failed at these two sites.

I want to also thank you for your words of encouragement to preserver with our third site and all of us here at Noil Energy Group, Inc look forward to working with APInovations, Inc in the coming months.

Finding people in the Biodiesel industry that you can trust is a great thing. I would recommend APInnovations to anyone building a biodiesel plant.

Sincerely,

Robert S. Clark  
Chief Operating Officer  
Noil Energy Group, Inc.
